Fozayel Ibn Ayaz

Full-Stack Developer · Analytics & QA

+8801726611455 /fozayelibnayaz ibnayaz789@gmail.com
Dhaka, Bangladesh Ayaz's Portfolio

I work where most projects quietly fail — in the space between code, data, and deployment. Full-Stack Developer connecting frontend, backend, analytics, and testing into one reliable system: React, Next.js, Node.js, WordPress, GA4, Playwright.

Education

North South University 2017 – 2022
BSc. in Computer Science and Engineering *Dhaka*

Ideal College, Dhanmondi 2014 – 2016
Higher Secondary Certificate *Dhaka*

Dhanmondi Govt. Boys' High School 2004 – 2014
Secondary School Certificate *Dhaka*

Work Experience

ENT Sourcing Corp 11/2026 – Present
Full Stack Developer *Remote*

» React.js, Next.js, TypeScript, Node.js, Prisma, MySQL, MongoDB
› Build and maintain full-stack web applications, developing responsive interfaces, frontend and backend routes, REST APIs, and database integrations while ensuring application performance, SEO, and reliability through testing and debugging.

Ekomedia 12/2025 – Present
WordPress Developer (Freelance) *Remote*

» WordPress, WooCommerce, ACF, Custom Post Types, JSON-LD, Core Web Vitals
› Develop custom WordPress and WooCommerce websites from HTML and Figma designs, implementing reusable content structures, technical SEO, performance optimization, and cross-browser testing. Live sites: euroedgeadmissiongroup.com · aeg-fournitures.com · demenagement-blondeau.com.

Eagle 3D Streaming 7/2023 – 8/2026
Data Analyst *Remote*

» Python, Streamlit, ETL, GA4, Google Tag Manager, Looker Studio, YouTube Analytics
› Managed end-to-end data analytics, connecting multiple data sources, developing Python-based ETL pipelines, and built two interactive dashboards with Streamlit and Looker Studio to consolidate data, track business performance, and deliver actionable insights.

n2sys Technology 1/2023 – 6/2023
IT Support Engineer *Dhaka*

› Installed, maintained, and troubleshot computer hardware, software, and network infrastructure while providing technical support, monitoring system performance, and documenting IT operations.

Codingal 8/2022 – 12/2022
Coding Teacher *Remote*

› Taught programming fundamentals to 4th- and 5th-grade students through practical lessons and individualized guidance, while supporting student enrollment through parent communication.

Quantanite 5/2022 – 7/2022
Associate *Dhaka*

› Processed and validated high-volume operational data, maintaining accuracy, consistency, and quality standards while meeting daily processing deadlines.

Projects

Personal: Prospect Studio github.com/fozayelibnayaz/prospect-studio

» Cloudflare Workers, D1, Gmail API
› Solo-built B2B prospecting and Gmail outreach CRM: 14 modules, 124 countries, 155 automated tests, live.

Work: Eagle Analytics System github.com/fozayelibnayaz/Eagle-Analytics-System

» Python, Streamlit, MongoDB, Telegram
› Production BI hub for Eagle 3D: KPIs, YouTube, revenue, anomaly alerts. 10-page dashboard, 15-min anomaly alerts, 151 tests.

Work: AI YouTube Command Center github.com/fozayelibnayaz/AI-YouTube-Command-Center

» Next.js, TypeScript, OAuth, GitHub Actions, Vercel
› YouTube analytics dashboard with a built-in AI chat assistant (30+ function-calling tools) and automated alerts.

Communication

English *IELTS 6.5 / B2* **Bengali** *Native*
